SUMMARY

Python Full-Stack Developer specialized in the Python ecosystem and modern web technologies. Successfully managed the complete development lifecycle for multiple projects, from backend logic to final deployment. Ready to apply a passion for clean code and efficient architecture to drive value in a dynamic environment

PROJECT

Canteen Project (Python Developer)

Personal Project

January 2026 - February 2026

- Developed a full-stack web application to manage food items, orders, and users.
- Implemented CRUD operations and secure authentication system.
- Connected MySQL database ensuring efficient data storage and retrieval.

Nexus- A Secure Voice Assistant Virtual Robot :

Academic Project

August 2024 - April 2025

- Designed security-focused architecture to ensure safe and reliable voice-based communication.
- Engineered robust encryption protocols within Nexus to safeguard sensitive voice data, elevating system integrity and meeting stringent industry compliance standards.

EDUCATION

B.E. in Artificial intelligence and Data Science

2024-25

Jaihind College of Engineering • 7.91 CGPA

Diploma in Computer Engineering

2020-21

Jaihind Polytechnic, Kuran • 80.63%

SSC

2016-17

G.R.P. Sabnis Vidyamandir • Maharashtra State Board • 81.00%

CERTIFICATIONS

Full Stack Python Developer Course & Certification

Java By Kiran Academy,Pune.

Python For Data Science

DevTown

SKILLS

Core - Python.

Front End - HTML, CSS, JavaScript, React, Rest-API.

Framework- Django, DataBase- My SQL.

Soft Skills: Problem-solving & Analytical Thinking,

Teamwork & Collaboration, Leadership,

Effective Communication.
